

# RAGTIME RACERS

**2024 Recap** – What a year it was, with 6 events across the U.S. we were very busy.

We attended 5 events in 10 weeks!

**Indy SpeedTour** – Indy in June was great as always, with perfect weather and a session on the oval, thanks to the hard work of our host Tony Parrella at SVRA. We had a large turnout of cars and set up the diorama in the garages – a real treat for spectators, of which there were many.

**Indy Legends** – This was a new event at Indy Raceway Park (IRP). It is a smaller oval across town from the Speedway and it included Indy cars from the prewar era to the rear engine cars of the 70's. The Indy Museum brought out some cars and we had more track time than any event we have ever attended.

**Road America –**  
This was the first time we had been invited to this famous track in Wisconsin. They treated us like royalty, and it was a blast. A great track with great people in a beautiful part of the country.

**Pittsburgh Vintage GP –**  
This was another first for us at a unique track around a large park in the middle of a big city. It attracts tens of thousands of spectators, although the weather dampened that a little, and our track time was limited due to rain.

**Monterey Motorsports Reunion –**  
Always a huge event, this year was no exception. We were located in a different location in the paddock that was much easier to get on and off the track. We had 17 cars show up- our biggest group for the year

**Ironstone Concours –**

There is nothing that matches this unique event. We displayed 9 cars on the concours grounds then moved to an adjacent dirt track made just for us. When we headed to the track most of the Concours spectators followed us leaving the Concours grounds almost empty. It was quite a show with lots of theatrics.

**Cars -** We had several new cars join us last year, including: 1912 Mercer, 1915 Stutz, 1910 Buick, 1920 Durant Special, 1914 Fiat, 1911 Bergdoll, 1904 Napier, 1911 Hispano-Suiza
